

Azure Boards Exercise

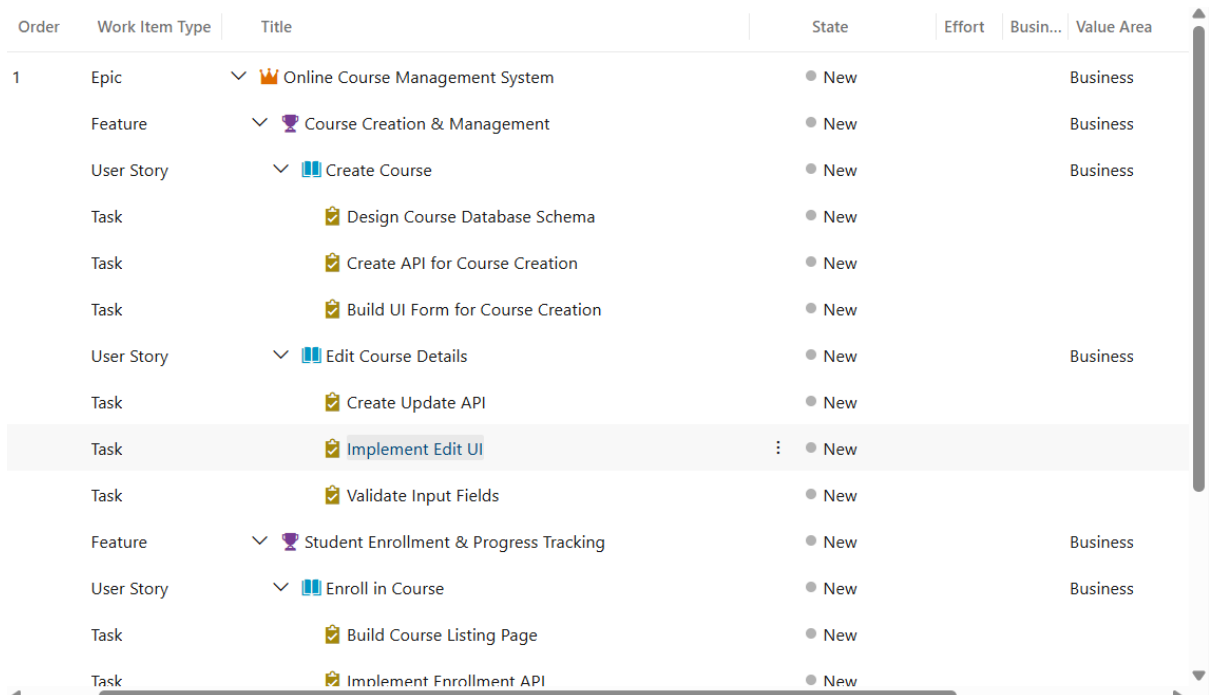

1. Tree Query Screenshot

This screenshot shows the 'Tree Query' view in Azure Boards. It displays a hierarchical list of work items. The top-level item is an Epic titled 'Online Course Management System'. Under it is a Feature 'Course Creation & Management', which contains a User Story 'Create Course'. This User Story has four associated Tasks: 'Design Course Database Schema', 'Create API for Course Creation', 'Build UI Form for Course Creation', and 'Edit Course Details'. All work items are in the 'New' state. A tag '#MVP' is visible on the 'Create Course' User Story.

ID	Work Item Type	Title	Assigned To	State	Tags
4	Epic	Online Course Management System		New	
5	Feature	Course Creation & Management		New	
8	User Story	Create Course		New	#MVP
9	Task	Design Course Database Schema		New	
10	Task	Create API for Course Creation		New	
11	Task	Build UI Form for Course Creation		New	
12	User Story	Edit Course Details		New	

2. Backlog View Screenshot

This screenshot shows the 'Backlog View' in Azure Boards. It displays a flat list of work items. The items are ordered by their position in the backlog. The top-level item is an Epic titled 'Online Course Management System'. Under it are several other items, including a Feature 'Course Creation & Management', a User Story 'Create Course', and several Tasks. The 'Create Course' User Story has four associated Tasks: 'Design Course Database Schema', 'Create API for Course Creation', 'Build UI Form for Course Creation', and 'Edit Course Details'. The 'Edit Course Details' User Story has two associated Tasks: 'Create Update API' and 'Implement Edit UI'. The 'Implement Edit UI' task is currently selected. All work items are in the 'New' state. The 'Value Area' column shows 'Business' for most items.

Order	Work Item Type	Title	State	Effort	Busin...	Value Area
1	Epic	Online Course Management System	New			Business
	Feature	Course Creation & Management	New			Business
	User Story	Create Course	New			Business
	Task	Design Course Database Schema	New			
	Task	Create API for Course Creation	New			
	Task	Build UI Form for Course Creation	New			
	User Story	Edit Course Details	New			Business
	Task	Create Update API	New			
	Task	Implement Edit UI	New			
	Task	Validate Input Fields	New			
	Feature	Student Enrollment & Progress Tracking	New			Business
	User Story	Enroll in Course	New			Business
	Task	Build Course Listing Page	New			
	Task	Implement Enrollment API	New
