

Azure Functions Logic App Exercise

PART 1: Create Storage Account & Container

Home > Resource Manager | Resource groups

Create a resource group ...

Basics

Tags

Review + create

Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)

Subscription * ⓘ	Azure for Students
Resource group name * ⓘ	rg1
Region * ⓘ	(Asia Pacific) Southeast Asia

Microsoft Azure

Home > Storage center | Blob Storage

Create a storage account ...

[Learn more about Azure storage accounts](#)

Project details

Select the subscription in which to create the new storage account. Choose a new or existing resource group to organize and manage your storage account together with other resources.

Subscription *	Azure for Students
Resource group *	rg1

[Create new](#)

Instance details

Storage account name * ⓘ	storagelabdemo99
Region * ⓘ	(Asia Pacific) Southeast Asia

[Deploy to an Azure Extended Zone](#)

Preferred storage type: Azure Blob Storage or Azure Data Lake Storage Gen 2

Performance * ⓘ

☒ Standard: Recommended for most scenarios (general-purpose v2 account)

☐ Premium: Recommended for scenarios that require low latency.
